COMPANY PROFILE

Technodent Dental Solution Pvt.Ltd (TDS) group Founded in 2015 by Mr. Virpal Patil (Founder & managing Director) Technodent was built with a vision to provide high-quality, innovative dental solutions that enhance both clinical efficiency and patient comfort.

Technodent Group recognized for quality products & services as well as established name in Indian market place, offers widest range of Indian & International quality Dental Equipments.

The range includes Dental Chairs Units, CBCT & OPG Machines, Lasers, Scalers, AERB approved X-Ray Machines, Intra Oral Cameras, Autoclaves, Digital Radiography Sensors, Handpiece range, Dental Microscopes, Light Cure Units, Bleaching Units, Physio Dispenser, Compressors, Suctions

OUR MISSION

To empower dental professionals with efficient, user-friendly, and high-performance equipment that enhances productivity and patient satisfaction.

OUR VISION

to become a leading and trusted name in the dental equipment industry, recognized for innovation, quality, and customer satisfaction.

OUR VALUES

At Technodent Dental Solutions Pvt. Ltd., our foundation is built on strong values that guide every product we design and every relationship we build:

QUALITY FIRST

We are committed to delivering durable, reliable, and high-performance dental equipment that meets international standards.

INNOVATION & TECHNOLOGY

We continuously upgrade our designs with the latest technology to enhance efficiency, comfort, and precision in dental practice.

CUSTOMER-CENTRIC APPROACH

Our customers are at the heart of everything we do. We focus on understanding their needs and delivering solutions that add real value.

INTEGRITY & TRANSPARENCY

We believe in honest communication, fair pricing, and long-term relationships built on trust.

OUR OBJECTIVE

Deliver Advanced Dental Solutions

Provide cutting-edge dental chairs and equipment that meet the evolving needs of modern clinics.

Ensure Superior Patient Experience

Enhance patient comfort and safety through thoughtful design and advanced features.

Empower Dental Professionals

Support dentists with reliable, easy-to-use, and efficient equipment for better clinical outcomes.

Expand Our Reach

Grow our presence across India and international markets with strong service and dealer networks.

Maintain After-Sales Excellence

Offer prompt service support and maintenance to ensure long-term customer satisfaction.

Drive Continuous Improvement

Invest in research, feedback, and innovation to constantly upgrade our products and services.

Founder's Message:-

"At Technodent, our goal is simple—to provide dental professionals with equipment they can rely on every day. We believe in continuous innovation, quality, and building long-term relationships with our customers."

Our Brands

STANDARD CONFIGURATION :

- Luxurious Down-mounted instrument tray with air break
- Luxurious **12 LED** operating light with intensity adjustment durable
- Stool with back & height adjustment for operator with Steel Base
- 24V DC Linak Motor (Denmark) Noiseless motor for chair safety system & Long Life
- Auto cup filler control system
- High vac /low vac suction Point with filter system
- 3-way syringe 2 No.
- Pure water supply system
- 90° Luxury Movable Ceramic Spittoon
- Multi Functional Foot Control
- Auto return to Zero position
- Air-Rotor terminal - 3 No

FEATURES :

- Fully electrically operated ergonomically designed Dental chair unit with touch panel for all controls of the chair
- Under Arm delivery unit with 9 Memory Programs
- Seamless Sleek upholstery
- All the tubing are made in USA
- 3 way syringe, delivery unit-1, Assistant side arm - 1
- Luxury Sofa Pattern Cushion For Chair Upholstery
- Luxury Touch Control Panel
- Butterfly backrest shape for ergonomic design
- Upto 260+ weight bearing capacity with 9000N motor
- 8 white and 4 yellow (anti cure function) light's LED lights offer 35000-57000 lux adjustable intensity

OPTIONAL: Built-in ultrasonic scaler LED curing light system, Motorise Suction.

STANDARD CONFIGURATION

1. Ambidextrous Design (Left & Right-Hand Use)

- Can be easily configured for left-handed or right-handed doctors
- 180° rotatable spittoon side box
- Ideal for multi-doctor clinic setups
- Metal backrest for durability heavy loading 300 kg load bearings capacity

2. 12 LED Operating Light

- High-intensity shadow-free illumination
- Adjustable brightness & color temperature (in most models)
- Enhances visibility during procedures
- 8 white and 4 yellow (anti cure function) light's LED lights offer 35000–57000 lux adjustable intensity

3. 9 Memory Program (Programmable Positions)

- Save multiple chair positions like:
- Entry/Exit•Treatment
- Rinse
- Surgery positions
- Improves speed and efficiency during procedures

4. Touch Control System

- touch control panel
- Smooth electronic operation for
- Chair movements
- Light control
- Instrument functions and programs

5. Doctor Tray (Delivery Unit)

- 3 Air rotor terminals
- Micro-motor provision
- 3-way syringe

6. Assistant Side Control Panel

- High vac and low vac Suction control
- Cup filler & spittoon control

7. Fully electric chair with noiseless motion motor system

- Foot control multi-function
- Seamless upholstery for hygiene

8. Luxury Sofa Pattern Cushion For Chair Upholstery

ADVANTAGES

- Suitable for modern clinics & multi-user setups
- Saves space with rotatable/compact design
- Improves doctor posture & reduces fatigue
- Faster workflow due to memory + touch control

STANDARD CONFIGURATION :

- Luxury 6 LED operating light with intensity Adjustment durable
- Dental stool for operator with Steel Base, height adjustment
- 24V DC Timotion Noiseless motor for chair safety system & Long Life
- Auto cup filler control system
- Down-mounted instrument tray with air break
- High vac/low vac suction point with saliva ejector system
- 3-way syringe hot/cold water
- Pure water supply system
- Main switch for water/air/power
- Removable Ceramic Glass spittoon detachable
- Multi Functional Foot Control
- Auto return to Zero position
- Upto 230 weight bearing capacity with 8000N motor

FEATURES :

- Luxury **6 LED** operating light with intensity Adjustment durable
- Fully Luxurious Electrically operated Dental chair unit with touch panel for all controls of the chair
- Under Arm delivery unit with 9 Programs, Gargle position for aged patient
- Seamless Sleek upholstery
- All the tubing are made in USA
- 3 way syringe - 2, delivery unit-1, Luxury Assistant side arm - 1
- 90° spittoon side box rotatable
- Upto 250kg weight bearing capacity with 8500N motor

OPTIONAL: Built-in ultrasonic scaler
LED curing light system, Motorise
Suction.

STANDARD CONFIGURATION:

- Elegant Designed Dental Chair, DC Noiseless Motor, Movable hand Rest, Adjustable Head rest
- Dual reflector LED Light with sensor & Manual
- Under Hanging Broad Working Tray with Unit Fitting of 3 Airtor Points, One Micro motor Point, One three Way syringe, X ray Viewer, Feather touch Chair control.
- All the tubing are made in USA
- Delivery unit with pneumatic lock system
- Ceramic Spittoon with 90 degree movement
- Assistant unit with low vac & high vac suction Point & 1 extra point
- Strong, Reliable and Sturdy Chair
- Wide tray, Backrest with unique design
- Multi functional foot control (Six-in-one foot control)
- Upto 200 weight bearing capacity with 7000N motor

OPTIONAL: Built-in ultrasonic scaler LED curing light system, Motorise Suction.

TORNADO 1 - COMPRESSOR

The Tornado is one of the quietest compressors in dentistry, yet it is still very powerful. The highly developed compressor set is extremely quiet, and can have a calming effect on both patient and practitioner.

FEATURES :

- Oil-free, dry, hygienic, taste and odourless compressed air.
- Very reliable thanks to the closed crankcase.
- Extremely low-noise.
- Plug 'n' play installation – place, plug in, ready.

MAXAIR COMPRESSOR

Model	-	Max Air
Power	-	780 W
L/Min	-	122
dB(A)	-	55
Pressure	-	6/8 bar
Tank Size	-	40 ltr
HP	-	1.1 hp
Dimensions	-	H-28", L-22", W-22"

WOODPECKER MINI RAY PORTABLE X-RAY

- 1) Radiation Protection:
Complies with international standards. Radiation leakage $\leq 0.05\text{mGy/h}$ (CE safety standard). 99.9% pure lead shielding in the oil tank and beam limiter.
- 2) Efficient Shooting :
50k tube wattage for enhanced penetration.
- 3) 2mA tube current for precise exposures.
140W output power for diverse clinical needs.
- 4) Long-lasting Battery:
1800ml x 35 lithium battery. 506 shots on full charge.
2-hour fast full charge.

AUTO-DRAIN SUCTION MACHINE. (For Dental Applications)

Hi-Vacuum Exceptionally Noiseless Suction Unit With Automatic Drain system. This unit develops hi-vacuum suction with oil immersed rotary vane type /piston vacuum pump. Due to oil immersed operation this unit operates completely noiselessly. We have provided very unique and maintenance free mechanism for auto drain operation. This machine can continuously use for 2-3 hours

Salient Features:

- Ex. Noiseless Operation Due to oil immersed vacuum pump
 - Mounted on castors for easy mobility.
 - Hi-Power Suction Due to 3/4 hp. Piston type vacuum Pump,
 - Vacuum Capacity 760 mm/hg. /Power : 230V AC, S0H2
 - Automatic ON/OFF with the help of Suction Tip Holder.
 - Optional: Color Choice at extra cost
 - Size: 38, 16'. 011"11-lx L x W /Weight s 20 kg. (Approx.)
- This machine can be used for 2-chairs one at a time

VS 250 SUCTION systems are the most versatile suction units since they considerably reduce the preliminary planning work & the outlay involved in installation. This makes them an ideal investment for a single treatment room or installing facilities for a prophylaxis service, surgery or orthopaedics.

Technical Specifications

Voltage	230(1~)
Frequency	50
Vacuum mbar (hPa)	90 at 250Ltr./min
No. of treatment chairs	1
Dimensions(HXWXD, in cm) without housing	32x28x28
Dimensions(HXWXD, in cm) with housing	47x35x46
Weight (kg)	13
Noise level without housing[db(A)]	64

VS 250 Suction

Features: VS 300 Suction

- Hygienic & Ergonomic
- Continuous high suction power of 300 l/min at the cannula
- Robust VS suction technology with automatic separator to separate liquid from solids
- High reliability
- High suction performance within seconds
- Flexible installation by custom-made program & functional accessories

Technical Specifications:

- Power (kW) : 0.58/0.8
- Dimensions (H x W x D cm) : 37 x 31 x 31
- Speed (rpm) : 2850
- Noise level dB(A) : without housing 63-65 ; with housing 54 - 56
- Vacuum : 180

WOODPECKER

Woodpecker Light Cure Unit - O LED

FEATURES:

1 Sec. for curing - Cure 2mm resin in 1 second, with maximum light intensity above 2300mw/cm², 5 W high-power blue light LED guarantees light intensity output.

High power LED lights - Imported wick from America, 30% lower current under same light intensity. Lower heating, longer service life. Ergonomic, feel great in hand - Smooth body line, Good hand-holding feeling, clear shape lines, classical back & white color matching. Strong penetration - Strong penetration, without distance limitation. Long distance irradiation does not affect Curing effect.

WOODPECKER D5 LED SCALER - DIGITAL PIEZON ULTRASONIC SCALER

FEATURES

- Detachable & autoclavable handpiece.
- Works on 3 modes : General, Perio & Endo.
- Automatic frequency tracking With 5 Titanium Scaling tips (3 S, 1 P, 1 Stain Removal) & 1 Endo attachment.
- Power input : 100V to 240V~ 50Hz/60Hz 1.2A (Max)
- Output Power : 3W to 20W
- Frequency : 28 kHz + 3 kHz
- Dimension : 188 mm X 159 mm X 81 mm
- Main unit weight : 0.65 kg

DTE - D5

WOODPECKER D3 SCALER -

FEATURES

- Digitally controlled.
- The handpiece can be autoclaved under the high temperature of 135oC and the pressure of 0.22MPa.
- Compatible with Satelec' handpiece and tips.
- Different functions i.e general, perio.
- The material of the handpiece made in America which is appointed as aero plastic components in Europe and America, which is FDA and NSF certificated.
- The cable is made from a silica gel tube which is soft and durable.
- The cavitation produced from the end of the scaling tip helps in easy cleaning of teeth.
- Works on 2 modes: General & Perio
- Dimension : 196 mm X 134 mm X 80 mm

DTE - D3

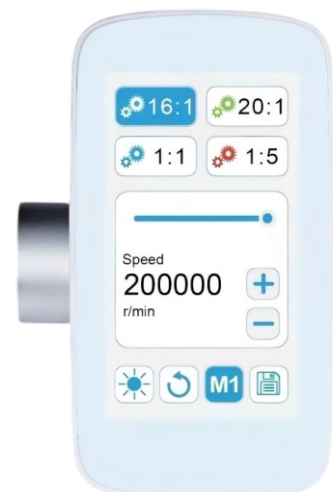

High-Definition LCD Intelligent Display Built-in Dental Motor

- Equipped with a large, high-brightness LCD screen that displays speed, gear, and other parameters at a glance,
- allowing dentists to monitor device status in real-time for more intuitive and secure operation.

Touchscreen One-Button Multi-Speed Ratio Switching (16:1/20:1/1:1/1:5)

- Freely switch between four speed ratios via the responsive touchscreen, effortlessly adapting to various clinical scenarios such as implantology, restoration, and root canal treatment-one device for multiple applications with precise control.
